Dear Shutesbury Community:

Today the local Boards of Health were notified that a parent/guardian of students at Amherst Regional High School has been diagnosed as presumptive positive for COVID-19. No additional steps have been recommended for us to take at this time since the schools have already been closed for the next two weeks with plans to complete enhanced cleaning during that time.

We understand that families may have questions about this diagnosis and how it may impact them. For additional information, you may contact the Shutesbury Board of Health from the at 413-259-2122.

Sincerely,
Jennifer Culkeen, Superintendent
Jacqueline Mendonsa, Principal
